

## Notice of Rim Data File Renewal

We at Rim Intelligence will revamp the Rim Data File from June. Besides the existing crude and petroleum products data, we plan to make the data file more comprehensive by adding LPG, LNG and petrochemical data as well. We will also include tables and graphs for easy reference. For more details, please refer to following table of contents. We believe that with more items added, the revamped Data File will find a wider scope of use.

For inquiries, please contact the Rim Data File team at:

Tel: 81-3-3552-2411

Fax: 81-3-3552-2415
